Isidor Isaac Rabi

Date of death: 01/11/1988 | **Date of birth:** 07/29/1898
Occupation or position: Physics

Community: [Rimanuv רימנוב](#)

Isidor Isaac Rabi was born in Rymanów, Galicia, Austria-Hungary. He was a Polish-born American physicist and Nobel laureate, recognized in 1944 for his discovery of nuclear magnetic resonance, which is used in magnetic resonance imaging. He was also involved in the development of the cavity magnetron, which is used in microwave radar and microwave ovens.
